#### Why Women Entrepreneurs are the Future of Tech

March 8, 2015 by [Vivek Wadhwa](#)

The world has many problems to solve. Billions live without reliable energy and lack adequate access to water, healthcare, and education. More people die from lack of clean water than from war. Our food system, the primary source of income for billions, must grow to meet the needs of another two billion people. Poverty is endemic. These are some of humanity's grand challenges.
